***Election Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121.

I. Group 1, claims 1-22 , drawn to surface emitting semiconductor laser, classified in class 372, subclass 45.

II. Group 2, claims 23-31, drawn to a method making a surface emitting semiconductor, classified in class 483, subclass 478.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and since the fields of search are not coextensive, restriction for examination purposes as indicated is proper.

3. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
